

Bee & the Note Family

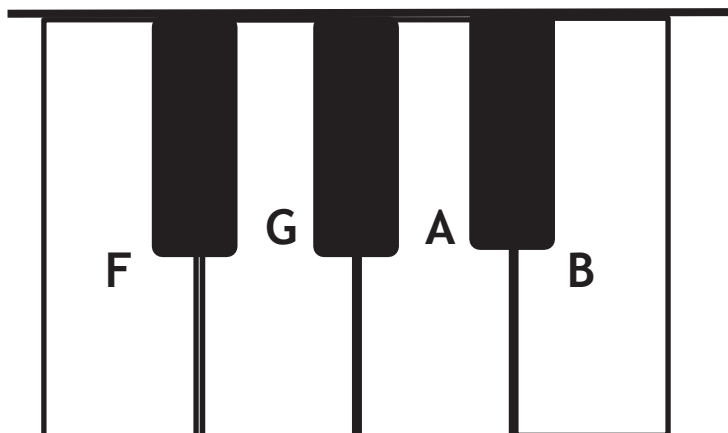

Once upon a time, there lived a family and their dog. He lived in a doghouse on Keyboard Street. Can you spot one of his homes? It has two black keys. He likes to sit right between the keys in the shade.

Doggie D has two friends who like to stay just outside his little doghouse. Eddie E and Baby C. C isn't really a baby, but people called him that and it stuck.

Can you draw below the letters on the keys, little pictures of Doggie D and his two homies, Eddie E and Baby C?

Doggie D's family makes their home from the group of three black keys. Inside the house lives the mom, Annie A; the dad, Georgy G; and Franny F, the daughter. Always just outside the

family home Bumble Bee hovers, waiting to sting. Mwu ah ah ah AHHH !! Will you draw in these characters? Thanks!
